FALLSINGTON, PA 19058-0338**

**A Family's Guide to
*SISTER-SCHOOLING***

From time to time, class sizes at a particular school within the Pennsbury School District exceed what we consider to be acceptable maximums. Whenever this happens, the process of "sister-schooling" for some students becomes an educational necessity.

Pennsbury utilizes sister-schooling so the student can be provided with a quality education and the most personalized attention possible.

Other particulars related to the sister-schooling process at Pennsbury include:

- Transportation for the student, whether by a direct bus or a shuttle, is guaranteed by the district;
- Siblings have the option of staying together in a sister school situation;
- The student has the right to transfer to his or her home school should an opening occur. Students will be ranked for return to their home school by their date of registration. A current list of sister-schooled children, along with their date of registration, will be kept on file in the Student Services Office;
- We will make every effort to return your child to their home school if it is feasible;
- If the student is being sister-schooled at the fifth grade level, we will make every attempt to ensure the student will be assigned to the middle school into which his or her home elementary school normally feeds.
