LinkIt! Benchmark Assessments

LinkIt! Benchmark Assessments are online, fixed assessments measuring student progress towards meeting end of year expectations.

The assessments provide a prediction to state assessment performance. Reports detail student strengths and needs related to grade level standards.

LinkIt! Benchmark Assessments

In October, students in grades 3 – 8 were tested in reading and math. In addition, students in grades 4 and 8 were tested in science. A second round of benchmark testing will occur in February for the purpose of assessing growth.
